Professional Summary

Computer Engineering background at UTeM with project experience across React/TypeScript interfaces, JavaScript browser interactions, Python integrations and Android release workflows. Brings technical troubleshooting experience and an interest in reliable, understandable software.

Education

Universiti Teknikal Malaysia Melaka (UTeM), Bachelor of Computer Engineering with Honours — Oct 2022 – Nov 2026

- Graduation scheduled: 2 November 2026.

Politeknik Port Dickson, Diploma in Electronic Engineering (Computer) — Dec 2018 – May 2022

Kolej Komuniti Selandar, Certificate in Computer Systems and Networking — Jul 2017 – Feb 2019

Technical Skills

Application development: JavaScript, TypeScript, React, Tailwind CSS, Python, browser events and application state.

Data & tooling: SQL, MySQL, Git/GitHub, Cloudflare, release packaging and technical documentation.

Systems practice: Android compatibility investigation, device testing, installation/recovery workflows, hardware/software troubleshooting.

Selected Projects

SMC Crows / Android Release Engineering

- Worked on Android compatibility investigation, release packaging, device testing and a community distribution portal.
- Documented installation and account backup/recovery workflows; release-specific test records explain device and Android-version constraints.

Mini Arcade / Interactive Web Applications

- Built a React/TypeScript arcade with minimax-based Tic Tac Toe, penalty-shootout and memory-game interactions, styled with Tailwind CSS.
- Explored game-state transitions, decision logic and touch/desktop interaction through a publicly accessible browser application.

Gesture Recognition / Touchless Reader

- Converted MediaPipe hand landmarks into 71-dimensional features and a 100-tree Random Forest for browser inference in JavaScript.
- Implemented gesture navigation with cooldowns and virtual controls. Reported 98.6% cross-validation accuracy; not a real-world user accuracy measurement.

Technical Experience

Technical Staff, Global Elite Ventures Sdn. Bhd — Sep 2021 – Jul 2022

Technical troubleshooting and hardware/software deployment.

Contract Assistant Engineer, ARNN Technologies & Karar Solution — Jun 2020 – Jul 2020

Engineering project support and technical problem-solving.

Technician, OKCS Seri Kembangan — Jun 2018 – Nov 2018

Diagnostics, repairs, hardware maintenance and software configuration.

Professional Registrations

BEM: Graduate Engineer, Computer branch; approved 15 October 2026. Public directory.

MBOT: Graduate Technologist, Information & Communication Technology (IT); GT26100872; approved 22 October 2026.

Selected Training

Festo / STDC: Industrial Automation with AI in Manufacturing, 14-16 July 2026.

Cisco Networking Academy: Enterprise Networking, Security, and Automation; Switching, Routing, and Wireless Essentials (23 February 2026). Course completions.

Languages

Bahasa Malaysia (native); English (professional working proficiency).
